**unique in
Sawing**

Weipert Saws

The Sawing Series
for all requirements

Weipert Saws

Flexibility and accuracy

A constant high quality is one of the outstanding characteristics of the Weipert Saws. The easy construction enable to erode easy and complicated parts and provide for a time and cost-saving production. The operating elements are functional and Appropriate for user mounted. The construction of the Weipert Saws based on the operator convenience to deliver an optimum result to the user. Thus the most advanced and efficient processing can be achieved.

Features

- Saw diameter to 1300mm
- CE-cretfication verifies the best possible safty
- all Machines in over-floor construction
